

Educators, Remain the Light

To remain meaningfully connected to our profession, we need to build in time to reflect. Whether you choose to reflect daily, weekly, monthly, quarterly, or just as you need it, that is completely up to you. Personally, I find it helpful to copy several of these blank organizers and keep them in a binder near my desk. I complete them weekly, highlighting and reflecting on trends at the end of each month.

What Powers Your Light?
